[linkedin.com/in/saishsatam](https://www.linkedin.com/in/saishsatam) | github.com/SaishSatam063

PROFESSIONAL SUMMARY

Final-year Computer Engineering student with hands-on experience across the MERN stack (MongoDB, Express.js, React.js, Node.js), building end-to-end, responsive web applications with RESTful APIs, backend services, and database integration. Additional experience in AI/ML, Natural Language Processing (NLP), and Large Language Models (LLMs), building AI-powered features into modern web solutions. Strong foundation in Data Structures & Algorithms, Git/GitHub, and scalable software development. Seeking a MERN Stack Developer / Software Engineer role.

EDUCATION

Vidyardhini's College of Engineering and Technology 2023 – 2027

B.E. Computer Engineering — CGPA: 7.17/10

CISCE (ICSE/ISC) — 94.54% | HSC, Maharashtra State Board — 57.67%

PROJECTS

SkillUp — Placement Preparation Platform Dec 2026

React.js, Node.js, Express.js, MongoDB, TypeScript, Tailwind CSS, JWT, Recharts, FullCalendar, Cloudinary

- **Built a full-stack MERN placement-preparation platform** with a centralized dashboard covering DSA practice, aptitude tests, mock interviews, quizzes, video learning, tech news, and group discussions.
- **Designed and implemented RESTful APIs and MongoDB schemas** powering profile management, resume/GitHub integration, to-do lists, and calendar-based task tracking.
- **Developed the cross-platform client in React, TypeScript, and Expo Router**, with AsyncStorage for persistent local data and personalized quiz/test workflows to track student progress.

ResearchS — Research Paper Analysis QA System 2026

Python, NLP, Transformers, Hugging Face, PyPDF, FAISS, NLTK

- **Built a Python-based research assistant** for research paper search, PDF text extraction, summarization, and conversational question answering.
- **Engineered an NLP preprocessing pipeline** for text cleaning, tokenization, and chunking to process research papers efficiently for downstream models.
- **Integrated and evaluated multiple transformer models** — FLAN-T5, BART, LongT5, and Mistral 7B — for summarization and question answering.
- **Implemented semantic document retrieval using FAISS embeddings** and benchmarked model outputs with standard NLP evaluation metrics to compare summary and answer quality across architectures.

TECHNICAL SKILLS

Programming Languages: Python, C++, JavaScript

Web: React.js, Next.js, HTML, CSS

Mobile: React Native

Backend / APIs: Node.js, Express.js, Flask, REST APIs

Databases: MongoDB, MySQL

AI / ML & NLP: Transformers, Hugging Face, FAISS, LLMs

Data Structures & Algorithms: Striver's A2Z Sheet, LeetCode

Tools: Git, GitHub, VS Code, Google Colab

INTERNSHIP EXPERIENCE

Web Development Intern — Octanet Services Pvt. Ltd. Jan 2025

Web Development Intern — Prodigy InfoTech Jun 2025

CERTIFICATIONS & ACHIEVEMENTS

- Top 500 — PixelHack 2025: MERN & application-based hackathon with over 25,000 participating teams.
- VNPS & Oscillation Technical Project Showcase — VCET, Apr 2026.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- **Deputy Treasurer, Microsoft Learn Student Chapter (MLSC)** (2025–Present): Support the Treasurer in managing event budgets, tracking expenditures, and maintaining financial records for technical and student activities.
- **Speaker, VCET MLSC 2026:** Delivered a session on applications of AI in modern software development.
